ABOUT ME

I am interested in IT and everything in its orbit. I recently began to be fascinated by web programming, e.g. developing apps and building websites. I decided to join a start-up company as a front-end developer, I gained experience of working in this area as a freelance web developer, I am keen to gain more experience in the field. For this reason, I am looking for a company willing to offer me a placement among their developers. In return, I would offer my full commitment, and be a pleasant and friendly addition to your team. I am therefore currently looking for a paid internship as a frontend developer
